President Falconer,
The University of Toronto,
Dear President,

I should like to report progress. In August I visited Dr. Cushing who operated on me last year, and obtained from him a very optimistic expression of opinion as to my health. He said I had gained faster than he expected. He thought that with another year's care I should be quite able take up my work again.

and he even held out hopes of complete recovery.

Since August I have gained considerable in strength. Even the facial paralysis seems to be disappearing. My eyesight is not yet normal, but it has improved perceptibly in the last few months.

I expect to come to Toronto in a few days; and I hope to report to you in person. I wish I could express my appreciation of your kindness during my illness, but I shall not try.

Yours very sincerely,

Grant Brown.
